

# EASY-C Public Workshop

December 5<sup>th</sup> 2008, Dresden

SPONSORED BY THE

Federal Ministry  
of Education  
and Research

Project Partners

An Infineon Technologies Company

Founded by Philips

The objective of EASY-C - Enablers for Ambient Services and sYstems - Wide Area Coverage is to show the feasibility of innovative approaches to further increase data rates of future cellular mobile communication systems "beyond LTE" and significantly improve the aspects

- Spectral efficiency
- Cell-edge user performance
- System fairness

The most promising techniques will be evaluated in outdoor field trails in downtown Dresden and in Berlin.

In the public workshop, the EASY-C partners will present and demonstrate recent achievements to interested technical experts from the public and discuss latest project results and evaluation approaches. The workshop is co-hosted with a meeting of the LTE/SAE Trial Initiative (LSTI), which takes place on December 3<sup>th</sup> & 4<sup>th</sup> in Dresden.
